

DevOps Discovery Workshop

Unleashing the Power of Collaboration and Automation

ICON Agility's **DevOps Discovery Workshop** helps businesses unlock this potential by identifying barriers, aligning goals, and creating actionable strategies to foster a culture of collaboration and continuous improvement

Who Should Attend?

- IT and Engineering Leaders
- Development and Operations Teams
- Product Managers and Portfolio Leaders
- Agile Coaches and Transformation Leaders

What You'll Gain

1. **Current State Assessment**
 - Understand your organization's DevOps maturity.
 - Identify bottlenecks in your development-to-delivery pipeline.
 - Analyze tooling, processes, and cultural alignment gaps.
2. **Tailored Improvement Plan**
 - Prioritize key initiatives for automation and process improvement.
 - Map out a roadmap for scalable DevOps practices aligned with business goals.
3. **Actionable Insights**
 - Practical recommendations for implementing Continuous Integration (CI) and Continuous Delivery (CD).
 - Strategies for reducing lead time, increasing deployment frequency, and improving change success rates.

Workshop Format

- **Duration:** 1-2 days (customizable to fit your needs).
- **Activities:**
 - Interactive sessions with stakeholders to understand challenges and objectives.
 - Hands-on exercises to uncover inefficiencies in current workflows.
 - Collaborative planning to design an optimized DevOps strategy.
