

Building a Lean-Agile Center of Excellence (LACE)

Who Should Attend?

- Transformation Leaders and Coaches
- Agile Program Leaders
- Portfolio Managers and Executives
- Change Agents and Organizational Leaders

What You'll Gain

- 1. Clarity on LACE's Role and Mission**
 - Define the purpose, objectives, and scope of your LACE.
 - Align the LACE's mission with organizational goals.
 - Identify success metrics to track impact and progress.
- 2. Operating Model Design**
 - Develop a structure that fits your organization's needs (centralized, decentralized, or hybrid).
 - Clarify roles and responsibilities within the LACE.
 - Establish governance frameworks for decision-making and alignment.
- 3. Roadmap for Launch and Growth**
 - Identify the skills, tools, and processes needed for LACE success.
 - Create a rollout plan for scaling agile practices.
 - Prioritize initiatives to deliver early wins and build momentum.
- 4. Change Management and Leadership Enablement**
 - Learn strategies for influencing culture and driving enterprise-wide buy-in.
 - Equip leaders with the tools to champion agile transformations.
 - Address common challenges in scaling agile across teams and portfolios.

Workshop Format

- **Duration:** 2-3 days (customizable).
- **Delivery:** On-site or virtual.
- **Activities:**
 - Interactive discussions on best practices and case studies.
 - Collaborative exercises to define the LACE's charter and roadmap.
 - Hands-on activities to design processes for effective collaboration.
 - Actionable takeaways to ensure sustainable implementation.
